

Emmanuel Onyekachi

Frontend Developer

Ibadan, Nigeria | emmanuel.onyekachi.dev@gmail.com | +234 814 793 1141
[LinkedIn](#) | [GitHub](#) | [Portfolio](#)

Frontend developer building responsive React and TypeScript interfaces with accessible interactions, clear component architecture, and performance-conscious implementation. Engineering training in systems thinking and structural analysis now informs how I debug problems, organize reusable UI, and handle edge cases.

SKILLS

Languages TypeScript, JavaScript (ES6+), HTML5, CSS3
Frameworks and tools React, Tailwind CSS, Vite, GSAP, Framer Motion, Git and GitHub, EmailJS
Practices Responsive design, component architecture, accessibility, performance, SEO, testing and debugging
Learning Next.js, Node.js, TanStack Query, Supabase

EXPERIENCE

TryRating | AI Training Evaluation Work Current
• Evaluate web-search results and phrase matches against written guidelines, rating relevance, satisfaction, content, availability, and comparative preference.

SELECTED PROJECTS

Solara Jets | Private Aviation Frontend Template Independent | Aug - Sep 2026
[Live Project](#) | [Source Code](#)
• Built a React and TypeScript interface with GSAP and Lenis pinned-scroll sequences, config-driven content, and responsive behavior tested down to 350px.

PrimeNest Realty | Luxury Real Estate Template Commercial template | Jan - Aug 2026
[Live Project](#) | [Source Code](#)
• Rebuilt a static multi-page site in React, TypeScript, and Tailwind; separated business data from presentation and added listings, filters, saved properties, comparison, and mortgage tools.

NairaSave | NTTS Fintech Challenge Team challenge | Jun 2026
[Live Project](#) | [Source Code](#)
• Owned the currency converter, savings chart, header, footer, and signup flow in an eight-person team; used branches and pull-request review and published the final deployment.

Lumière | Fine Dining Reservation Prototype Independent | May 2026
[Live Project](#) | [Source Code](#)
• Built a rule-driven vanilla JavaScript reservation prototype with party-size and manual-review logic, EmailJS notifications, modify and cancel flows, and experience deep links.

Tech HTML5, CSS3, JavaScript, EmailJS

EDUCATION

Federal University of Technology Owerri Completed 2024
B.Eng. Materials and Metallurgical Engineering | Second Class Upper
